

## PROFILE OF UBALDO

AGE: 15 YEARS OLD

PLACE: Village "San Juan de Dios", Cañazas, Province of Veraguas, Republic of Panama

Ubaldo is the third of a five children. He is from a poorest areas of Panama. His family is dedicated to subsistence agriculture. He is already studying Scince in the first year of High School in the nearest city, Santiago of Veraguas, 90 kms from his house.

Ubaldo and his family have a very difficult situation. Two months ago his oldest brother(22 years old) died of cancer after a long and hard period of care. As they are so poor, the parents had to move to take care of his son in a far city called David, 300 kms from the village, with a support of an aunt and grandmother. This guy left a one year old baby and his parents had to take care of him, as his mother is also ill.

Ubaldo, is a brother of Ovidio, another student that we support in his studies. We are looking for a support for this boy of 100 american dollars to pay his staying in Santiago City, where is located his high school. It includes food and house per month during ten months. The career is three years.

Ubaldo has a very good behavior. He likes to help other people and has a good discipline in his life. If we would not support him he cannot study because his family has no permanent incomes. His father sometimes comes to the parish to look for some work to have some dollars to buy food and milk for the orfan grandson.
